NEW!!

Bano'te 503 SERIES

The New 503 series: advanced and reinvented to be user-friendly

NEW

Stabilized pin feeding action

Stable pin feeding action promises operator comfort, allowing smooth continuous tagging of up to 100 pins.

NEW

New Design and Color

An excellently-designed, compact body ensuring high usability. A full lineup of four models to choose from according to your purpose of use. Each model now available in a brand-new coloring.

NEW

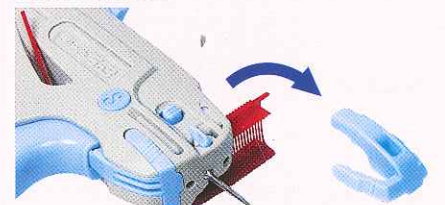

Non-slip rubber

Slip-preventing rubber attached to sides of the gun avoids slipping and dropping of the gun from inclined surfaces.

OPTION : Sub guide

Attachment of an optional sub-guide allows the disposal of runner bars to be made in a backward direction, rather than in a downward direction as in an ordinary gun.

(For exclusive use with genuine Japan Bano' k pins)

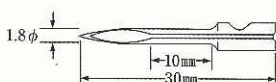

Sub guide

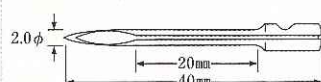

Main guide
